

IN THE CLAIMS:

Please cancel claims 54 and 56-59, amend claims 53 and 55 and add new claim 60 as follows:

53. (Twice Amended) A material for transferring an image onto a substrate, the material comprising a carrier providing a surface on which an image can be created or onto which a preliminary transfer of an image can be made, said surface being provided by a layer or coating of polymethylpentene material on a backing sheet, the layer or coating being applied at a substantially uniform thickness, the layer or coating being applied to the backing sheet at a weight in the range of about 10 gram/m² to about 30 gram/m², and the backing sheet being paper of a weight in the range of 90 gram/m² to 110 gram/m².

55. (Twice Amended) A material according to claim 53, wherein said layer or coating is applied to the backing sheet at a weight of 25 grams/m².

Please add the following new claim:

60. (New) A material according to claim 53, wherein the reverse surface of the backing sheet which does not carry the layer or coating is coated with polyethylene.
